

K YOGANANDA REDDY

Kadapa, Andhra Pradesh, India

+91 93473 30306 — yogananda1585@gmail.com — [LinkedIn](#) — [GitHub](#) — [LeetCode](#)

OBJECTIVE

CS&AI Engineering student with hands-on experience in developing AI-based projects and practical technology solutions. Interested in Generative AI, Large Language Models, RAG, Multi-Agent Systems, and emerging AI technologies. Passionate about solving real-world problems through innovative AI solutions, continuous learning, and building impactful projects.

EDUCATION

Bachelor of Engineering in Computer Science-AI Amrita Vishwa Vidyapeetham, Coimbatore. CGPA (up to Semester IV): 6.85/10	August 2024 - Present
Intermediate Education Narayana Junior College. Board Of Intermediate Education,A.P, Percentage: 83.8	june 2022 - march 2024

SKILLS

Programming Languages:	Python, Basic Java, SQL, MATLAB
Web Technologies:	HTML, CSS, JavaScript, Flask, FastAPI
Database:	MySQL, MongoDB
Libraries:	NumPy, Pandas, Matplotlib
Developer Tools:	Git, GitHub, MATLAB

PROJECTS

Online Voting System — [GitHub](#) — TypeScript, React, Node.js, MySQL

- Developed a web-based electronic voting platform with separate voter and administrator workflows for election management.
- Implemented authentication, role-based access control, vote validation, election management, and database-backed result handling.

Spectral Imputation — [GitHub](#) — Python, NumPy, Pandas, Scikit-learn

- Developed a machine learning pipeline to reconstruct missing values in air-pollution time-series data using pre-processing and predictive modeling.
- Evaluated imputation performance using quantitative error metrics and analyzed reconstructed data to improve missing-value recovery.

Adaptive Grass Cutting Robot — Arduino, C/C++, Sensors, PWM

- Designed a chlorophyll fluorescence-based sensing system using an optical sensor and Arduino to detect grass under varying lighting conditions.
- Developed adaptive blade-speed control based on detected grass density and integrated motor PWM with ultrasonic obstacle detection.

CODING PROFILES

LeetCode: [yogananda151](#) (151 DSA Problems Solved)
